

# User Management

# **General description**

### Purpose of User Management:

A User can store all the visual and technical information on how a user has set up and constructed the *Analyzer* with various views, channel colors, channels groups and the different setting of plots and exports.

## **Further Information**

Whether user management can be used at all depends on the respective licensing of the software. With the **R&D**, **NET** and **TEAM** licences, user management and therefore an unlimited number of different users can be created.

Working as different users is very useful for organizing the 2D-Software *Analyzer* when multiple people are working on one only one computer with 2D-WinARace installation.

Also, for an individually used computer it is very useful to create different users which are covering different topics (Suspension, Engine, GPS, ...).

Beside

## **Further Information**

Users can be deleted, renamed, copied, and exchanged with other users.

Users are managed by a Master-User.

At new WinARace-installations, users from previous installations can be imported at installation!

## Documentation reference

For more information about sharing user please see the manual **User management – Integrating User settings** on our website: <u>http://2d-datarecording.com/downloads/manuals/</u>

#### Enabling User Management:

If user management is <u>enabled</u> the following *Analyzer* login window is shown when opening the *Analyzer* from *WinARace*.

nalyzer login		$\times$				
User						
FS	Start with template					
Demo-Kit User	Last session (Overview)	^				
Demo-FIA-GT3 User	2D Check					
DemoUser	2D Compare2Runs					
DTS-DEMO	2D GearBox					
	2D Gearing					
	2D GPS Acc					
	2D GPS Circuit					
	2D GPS GripandYaw	~				
	Show preview					
	Only favorites					
Next time auto-login, no dialog						
🔍 Login 🛛 🗶 Cancel						

### **Further Information**

User management can be disabled only by Master-User by ticking the box *Next time auto-login, no dialog* 

To <u>enable</u> User Management in Analyzers tab Settings the selection User management must be clicked to open the following window and set tick-box Multi User.

Settings   Wizards   Plugins   Tutorials     Image   Image				🐴 User management				_	$\times$		
Construint Construint   Image Image   Image	Setti	ngs Wizards Plugins	Tutoriak	File F	Functio	ns Help					
Image: Cariguage 0 FS   Image: Cariguage 0 PS   Image: Cariguage 200 Demo-Kit User   Image: Cariguage 200 Demo-Kit User   Image: Cariguage 201 Demo-FIA-GT3 User   Image: Cariguage 202 DemoUser   Image: Cariguage 205 DTS-DEMO	A		Tutonais		Ŧ	H 😘 🛍	8	8			
	-	U Language		0	F	S				 	
201 Demo-FIA-GT3 User 202 DemoUser 205 DTS-DEMO	🕵 User management			200	۵	emo-Kit User					
Switch user 202 DemoUser   205 DTS-DEMO	-				0	emo-FIA-GT3 l	lser				
205 DTS-DEMO	Switch user		202	0	emoUser						
				205	0	TS-DEMO					
Multi user				🗹 Mu	ulti user						

To <u>disable</u> User Management or add or delete users via the Analyzer, the Master-User (normally first in list) must be used when opening the Analyzer.

Otherwise, the User management selection in Analyzer-tab Settings is not available.

Settings		Wizards	Plugins	Tutorial		
0	Lan	iguage	•			
N/A	User management					
氡	Swi	tch user				

#### **Further Information**

*Master-User* is the user which User0 (please see figure at next page)

### User Management in Browser:

Open *WinARace* and open *Folders - Protocolls* folder via WinARace-Tab *Settings* and open *user data directory* by clicking on the button with respective path

# Further Information

Instead of opening *Folders – Protocolls* also shortcut [CTRL]+[ALT]+[U] can be used with *WinARace* opened!

In directory Users the different users are stored:

## **Further Information**

Master-User in this example is User0=FS
